A5 Diary Front Cover

Anything beyond the white dotted line will be cut off

Bleed (3mm)

The bleed area extends 3mm beyond the edge of the document. All colours and images must extend to this area to prevent unwanted white borders around the edge once cut.

Safe Area (4mm)

Please ensure that all important details are at least 4mm away from the edge of the page to prevent them from being cut into.

Printed borders which are too close to the edge may look uneven once the cut and finished.
